### HOT SPRING, N. C.

DEAR SIGNAL:--How I've longed and waited for last week's issue. We should all bear in mind that punctuality begets confidence and this is repaid by confidence. These two words contain lessons on morals sufficiently comprehensive to fill volumes if properly written.

We are still here, and here stiller than we would like to be, for I would like to be taking in "Lovers Leap" and other objects of interest in the smokies, but I am yet unable to walk and a buggy costs \$2 "per diem--per day," or even for a shorter time.

While the residents are very kind to visitors and especially to the sick and the afflicted, yet they all know what money is and how to make long charges. Yes, I am unable to perambulate, medicine I've been taking and the water that I have so freely inhaled for nearly two weeks and two little sick spells, have reduced me in flesh, strength and good looks and I have none of either to spare. We see that the Rockcastle Teacher's Institute will convene Monday next and while I can't be with them in person, yet in heart, soul and thought I will make one of your number. I like institute work for both the instruction and amusement it affords. Speaking of the institute runs me back to the 70's when the work was begun by our efficient Supt. J. C. P. Myers, and carried successfully through by him and such teachers as Profs. Storck and Patten, Jesse Reynolds my first and a beloved teacher; these have crossed the river, R. H. Swiney, Dr. and E. M. Denney of Missouri, S. D. Bowder of I. T., W. C. Bruce, and Ben and John and their sisters to parts unknown, R. S. and S. H. Martin, W. A. B. and Dr. S. C. Davis, Jas. (Jimmy) Roberts, myself and brother, J. W. Brown, are yet here but not teaching.

The Dr. called in today, made inquiry and examination and said that I am doing well--as well as he expects or desired. So mote it be! This water is wonderful on the stomach. One may drink half a gallon and even more, often during the day and experience no trouble, but it reduces your flesh and strength. It has rained nearly every day or night since we came, and it is now so hot that I am sweating at every pore, and I expect more rain at once.

Tom secured an invalid chair and rolled me through the town, about one-fourth of a mile from our room, to the Hot Spring and bath room. I went with the full intention of bathing and then sweating, but I found two sets of marble steps to descend before reaching the pool and I knew that was impossible for me, even with help, at present, so I contented myself with drinking lots of water, sweating profusely, resting on a cot, and then a short distance to their famous spring where I drank plenty of water the only free thing here except the air and noise. We saw, besides the hotels, many other good substantial buildings and I got a more extended view of the Smokies which are picturesque, sublime, yea, awe inspiring in their appearance and especially to one whose experience with mountains has been limited to the hills of Rockcastle, and Concess Knob near Crab Orchard. These are big things. Some of them have a romantic history attached, like Lovers Leap, a perpendicular peak hundreds of feet high on which the young Indian and his lover climbed to the top and then jumped into eternity together, because the chief of the tribe would not permit them to marry. The policeman here has a newspaper published January 1800, over 105 years ago. I'll give you some extracts in my next. This is an old town and seems to be finished, republican in politics, though quiet. The French broad is a turbulent little river with lots of fish though not many caught. Asheville, 30 miles up the river, the noted summer resort for tourists, pleasure and health seekers, is filled to the overflowing by men, women and children from the world over, so I am informed.

I read, write, eat, sleep, talk, think and pray. I hope all good people will send up short petitions for me often. Very truly,  
BUCK VARNON.

BENT HER DOUBLE.  
"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter, of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." ### Why Called Man?

[By J. S. Reppert.]

An idea or argument is prevailing among the illiterate class that we never could have known that we are men unless some supernatural agency had taught us and named us man. We presume this idea has been foisted on a credulous people by some religious journal; as any argument, however, it is unworthy of notice.

Hearing this idea oft repeated, it produced a very interesting train of thought in my mind. When and why called man? What else and why has he been called other names?

Our language, our customs, our civilization, all that makes us great have been developed out of and from three sources. The Greek, the Latin, and the Teutonic peoples. By referring to the language of these races we can get a definite idea of why and how they named the human biped we call man.

The Greek name was *Anthropos* (An-a-; *Thepo* to turn; *ops*-the face). Thus what we call man, the Greeks called *Anthropos* because he was the only animal development that moved with upturned face.

The Latin name for man was *Vir*, which was derived from the Latin word *vis*, meaning strength. Hence man was named *Vir* by the Latins on account of his strength. The German or Teutonic race apply the word *Mancher*, and the Anglo Saxon the term man. Both these words are derived from the Latin word *manus* (the hand). Hence the word man is clearly of human origin and was applied because his hand was better developed than any other in animal life.

What a world of thought we have here for the intelligent and thinking man. Not only is the term man most clearly the evolution of human reason and human thought; but the terms *anthropos*, *vir*, *mancher*, and *man* show by their composition and derivation that human language must have had considerable development before these names were invented.

### CONWAY.

The continued rains has done considerable damage to the corn and potato crops on low land here. The farmers are trying to take care of their wheat crops between rains, but the wheat is damaged to some extent. Mr. W. H. Sims, of Jeffersonville, Ind., is visiting his father, J. F. Sims, at this place. On account of so much wet weather the bees lost out in their honey business during the month of June. Mr. George Shockley, of Berea, sold Wm. Clouse 13 acres unimproved land for \$50. The public school begins here next Monday. Mr. Pleas B. Broadus and wife, C. Shropshire and wife, Mrs. Betty Chenault, Geo. Hume, Jno. D. Simmons and D. M. Chenault, all of Madison county, spent last week here enjoying the good water from the big well.

### A SURPRISE PARTY.

A pleasant surprise party may be given to your stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure, for headache, dizziness and constipation. Price 25c, at Mt. Vernon Drug Co.

### HAZEL PATCH.

The Fourth was very quiet here. Mrs. Dick Brooks is at London in the hospital. Her condition remains about the same. Mr. and Mrs. James Hunt, Misses Hila and Tola Hunt, Mrs. J. J. McCall and Miss May Sigmon, of Maretburg, spent a few days at this place. Mr. J. K. Nicholson inflicted quite a painful wound, in the knee by cutting with a knife, instead of a whip stock, as intended. Mr. C. Bryant, who has interest in lumber trade at this place, has been called away for three weeks past. Mr. Jno. Truman, of Mt. Pleasant, Texas, is visiting his brother, Reuben, at this place. Lumber and stove hauling is quite lively now. Mrs. Owsley and Mrs. Jno. Houston have been sick, but are better. Mrs. Zip Mullins, of East Bernstadt, visited Mrs. Essie Bookard at the boarding house. Harry Houston spent the Fourth at Maretburg.

### CHOLERA INFANTUM.

Ruth, the little daughter of R. N. Dewey, of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle, she was well." This remedy is sold by all druggists.

## SUEZ CANAL PROFITS.

(Washington Star.)

"Tis 40 years since," and what a difference between then and now! At that time men were saying the Suez Canal never would or could pay operating expenses. At the present time it is so enormous that the company is compelled again and again to reduce the tolls in order to keep the dividends within legal bounds. Of a truth, Mr. Greenwood was president when 30 years ago he persuaded the British Government to buy the Khedive's shares. Lord Derby, the Foreign Minister, did not like the scheme. Sir Stafford Northcote, Chancellor of the Exchequer, distinctly disapproved it. Disraeli himself, Prime Minister, was doubtful.

It did not seem a tempting thing to pay \$20,000,000 for shares, the interest on which had been mortgaged for 19 years. But Mr. Greenwood was persistent. He pointed out that most of the shares, apart from the Khedive's, were held in France, while 80 per cent. of the traffic through the canal was British. So British commerce must pay tolls into French pockets. The tolls were high, and when England asked that they be reduced France answered that if England did not like the canal she might send her commerce by the old route around the cape. In the end Mr. Greenwood's pleas prevailed, and the British Government paid \$20,000,000 for shares that are now worth \$140,000,000.

A curious error was made in a dispatch the other day, which said this year's dividend was only 14.1 per cent. Not for a long time has it been so low. The dispatch should have said it was 14.1 francs a share, a far different thing. As the shares are of 500 francs each, the dividend is at the rate of 28.2 per cent, or just twice what was at first stated. Last year's dividend was 130 francs a share, or 26 per cent. Now the London agreement binds the company not to appropriate profits of more than 25 per cent, but to reduce the tolls as much and as often as may be necessary to keep them down to that figure. That is why the company proposes another reduction.

It did reduce tolls two years ago from nine to eight and one-half francs a ton, but still the profits kept on increasing and pushing the dividend above the 25 per cent. limit. There are those who reckon that if tolls were now reduced to six francs the company would still be able to declare a yearly dividend of 25 per cent, and that a few years hence a still further reduction can be made without impairment of the legal dividend.

## POLITICS AND POLITICIANS

The nomination of Charles A. Bookwalter by the Republicans for Mayor of Indianapolis is said to mean that the younger element of the party has captured the organization, and that Senator Beveridge will control the city and county, as far as the Republicans are concerned.

At the Tammany Fourth of July celebration Tuesday a letter from Alton B. Parker was read, in which he declares that the issue should be the divorce of business and politics. That old issues are dead, he says, is a gratuitous assumption.

## PUBLIC SALE

Madison County Farm!

The undersigned as Executor of Margaret P. White, deceased, will on

Thursday, July 20, 1905, at the hour of 10:30 o'clock A. M., offer for sale on the premises to the highest and best bidder the farm known as the Ben Price place, located on the waters of Silver Creek in Madison county, Ky. This farm contains

**391 6-10 ACRES,** and is five miles from the Court House in Richmond Ky., and is divided by the Silver Creek and Hazan's Mill Turnpike road, 120-240 acres thereof and known as the Haynes tract, lying on the north side of said turnpike, and 202 4-10 acres, and on which are the main residence, and (chicken barn, being on the south side of same. The latter part also front for about one-half a mile on the Richmond and Lancaster Turnpike road.

This farm has long been noted as one of the most productive Blue Grass farms in Madison county, Ky., is well timbered and in one of the best of farming communities. Every acre of this land is productive; much of it is never cultivated, and none of it is idle. A tobacco crop raised on less than five acres of this land in 1904 was sold for \$750.00. The present crops show the quality of the soil.

Of the Haynes tract, 35 acres are now in wheat, 30 acres in corn, and 10 acres in tobacco. Of that part located between the Lancaster Turnpike and the Haynes's Mill Turnpike roads, 10 acres are now in wheat and 15 acres in corn. The balance of 260 acres of the farm is in blue grass and timothy. A comfortable residence, a large 10-barn, two tenant houses and other improvements are upon the property.

I will offer the farm for sale as follows:

**NO. 1. HUME TRACT** lying south of the said Haynes's Mill Turnpike road, and containing 183 1-10 acres. The residence and tobacco barn are on this tract.

Nos. 1 and 2 will be offered together and then the entire farm will be offered, and the sale will be made in the manner bringing the most money. But the right to offer said farm for sale in different parcels, and in combinations on the day of sale is reserved.

Said entire farm is rented for the year 1905, but the purchaser or purchasers will have the right to order during the fall of 1905 to sow small grain. Present tenants have the right to re-enter to remove present crops to February 1st, 1906.

**TERMS:** Possession of said farm will be given January 1st, 1906. One-third (1/3) of the purchase money will be due and payable December 31, 1905, one-third (1/3) July 1, 1906, and one-third (1/3) December 31, 1906, and the purchaser or purchasers will be required to execute notes to the Executor with good security for the payment of the purchase money, bearing legal interest from December 31, 1905, until paid, with a lien reserved upon the property. The gas well being drilled by the Henderson-Parre brothers, was abandoned at a depth of 655 feet, having passed through the sand at that depth without any indications of either oil or gas. They are now drilling a water well for W. I. Sparks.

A westbound passenger train of the Chesapeake and Ohio road, crushed into a passenger train of a Louisville and Nashville road at Wiley Station, near Lexington and seventeen passengers were more or less seriously injured. Among these injured are Editor W. P. Walton, of Frankfort, whose right arm and leg were crushed.

They left on the evening train for Livingston. The SIGNAL extends its very best wishes.

We wish to call attention to the quarterly reports of our two banks, The Bank of Mt. Vernon and the Citizens Bank, of Brodhead, which appear elsewhere in this issue. The Citizens Bank, with only six months duration has a deposit of over \$34,000 and net earnings of over \$600; while The Bank of Mt. Vernon has over \$50,000 deposit, a surplus of \$3,000, and over \$4,000 undivided profits. The showings of both institutions bear evidence of the fact that they are conservatively and judiciously managed.

J. W. Bastin and W. A. Pugh, citizens of Pittsburg, filed suit against County Clerk F. P. Elliott of Laurel county and enjoined him from issuing wholesale license to the Jung Brewing Co. and the Pineapple Brewing Co., of Pittsburg, their license having expired Friday. Both concerns have for years been selling beer by wholesale. Plaintiffs claim that under the act of March 22, 1904, the clerk has no right to issue wholesale license to concerns in local option territory, except those selling their own manufactures.

James Head, aged 24, of near Level Green, was taken to the Insane Asylum at Lexington yesterday morning. Young Head had been in very poor health all Spring but according to the evidence brought out before the jury, his insanity was largely due to the death of his brother and sister, which in both cases was very mysterious. His sister, who was Mrs. Doan, was found in her room with a bullet hole through her head and his brother who was found dead from a shot fired from his own gun supposed to have been accidental. All this together with his ill health was more than his frail constitution could stand.

Every town is anxious to draw trade from as great a distance as possible, and the problem of how to accomplish the best results in that direction has received the best thought of business men everywhere. One of the most novel plans for this purpose has been adopted by the business men of a Kansas town and it looks like it ought to be a winner. On every Saturday they will give a prize of \$5 to the farmer who has driven the farthest to town to trade. To be entitled to the prize, however, the farmer must trade to the value of at least that amount. This plan ought to be an attractive one to the farmer living at a distance.

Says the Mountain Echo: "A pretty little wedding, in which Mr. Robert Boyd, Jr., and Miss Lula Lee McClure were the contracting parties, took place at the home of Mr. and Mrs. J. C. Rinehart last Thursday night at eight o'clock. Mr. Boyd is one of the most prominent and rising young attorneys practicing at this bar, and is Master Commissioner of Laurel County. Miss McClure is the beautiful and accomplished daughter of Mr. C. C. McClure, and since coming to London has gained a wide circle of friends and admirers."

## TEACHERS' INSTITUTE.

Brief outline of the week's work of the Teachers' Institute: Rockcastle County Teachers' Institute was convened at Mt. Vernon July 3rd, 1905. The house was called to order by Supt. Ballard. Devotional exercises were conducted by Rev. R. E. Bell. J. C. Gibbs was elected secretary, with S. M. Baldwin as assistant. Committee on program: S. F. Bowman, S. N. Davis, Logan Scott, Miss Mae Brown, Mrs. Martha Pennington and Prof. Grinstead, chairman.

Committee on Entertainment, Misses Maggie Hausel, Anna Thompson, Mamie Jones, Emma Pennington, Bettie Pennington, Lillie Butler; Messrs. Lee Chestnut, Wade Brown, C. B. Thompson and E. R. Gentry. After all organization had been completed, Prof. Grinstead, in a most interesting manner, outlined the week's work. Tuesday being a holiday, the Institute was adjourned that the teachers might spend the day picnicking and celebrating. Wednesday and yesterday was devoted exclusively to discussions of the different subjects as outlined in the syllabus. Wednesday evening from 8 till 11 o'clock, the teachers were entertained at the home of Mr. and Mrs. Willis Adams, and last evening an interesting program was carried out at the court house. The Institute will complete its work today and adjourn about noon. The resolutions as adopted will appear in our next issue.

### Indigestion Causes Catarrh of the Stomach.

For many years it has been supposed that Catarrh of the Stomach caused indigestion and dyspepsia, but the truth is exactly the opposite. Indigestion causes catarrh. Repeated attacks of indigestion inflame the mucous membranes lining the stomach and expose the nerves of the stomach, thus causing the glands to secrete mucus instead of the juices of natural digestion. This is called Catarrh of the Stomach.

**Kodol Dyspepsia Cure** relieves all inflammation of the mucous membranes lining the stomach, protects the nerves, and cures bad breath, sour risings, a sense of fullness after eating, indigestion, dyspepsia and all stomach troubles.

**Kodol Digests What You Eat** Make the Stomach Sweet. Bottles only. Regular size, \$1.00, holding 2 1/2 times the trial size, which sells for 50 cents. Prepared by E. O. DEWITT & CO., Chicago, Ill.

### Wine of Cardui Cured Her.

213 South Prior Street, ATLANTA, GA., March 21, 1903.

"I suffered for four months with extreme nervousness and lassitude. I had a sinking feeling in my stomach which no medicine seemed to relieve, and losing my appetite I became weak and lost my vitality. In three weeks I had fourteen pounds of flesh and felt that I must find speedy relief to regain my health. Having heard Wine of Cardui praised by several of my friends, I sent for a bottle and was certainly very pleased with the results. Within three days my appetite returned and my stomach troubled me no more. I could digest my food without difficulty and the nervousness gradually diminished. Nature performed her functions without difficulty and I am once more a happy and well woman."

### MAKING OF STAR-SPANGLED BANNERS.

Making the American flag is the work of skilled labor. Girls and women alone possess the degree of ability required to obtain best results. Only the heaviest and least complicated features of the work fall to men. First, the stripes are cut from huge rolls of red or white silk or linting. Then they are basted together and later turned over to girls operating sewing machines that stitch at the rate of 2,400 stitches a minute. The lock stitch is used, and thread fed from spools each holding twenty-four thousand yards.

The stripes stitched together, the flag is ready to receive the union. Red is the predominant color in the flag. The union is the blue field which occurs in the left upper corner of a flag, and it contains forty-five stars, one for each State. Silk flag stars are of embroidered silk. On wool bunting flags they are of muslin. The union itself is of the same material as the body of the flag. A star is half the width of the stripes of the flag containing it.

Muslin stars are cut out by machinery at the rate of three thousand an hour. Embroidered stars are cut out in block form by the use of dies, sewing machines being utilized for the embroidering process. These stars are five-pointed, each point being precisely like its fellow. No hand can become so skilled as to make one point the counterpart of another, so the dies, which never error, are used.

The muslin, from which the stars are cut out is folded in forty-five thicknesses and placed beneath a die attached to a press operated by foot power. A sharp pressure of the treadle brings the die down upon the cloth with such force that the sharp steel cuts as cleanly as a surgeon's knife.

The task of the girls who arrange the stars upon the uniforms is one of exactitude. The stars are placed in rows, alternating eight and seven. Their positions must not vary a sixteenth of an inch. Once in place they are basted by hand and then go to the machine operators who sew them firmly upon the unions. Embroidered stars are basted on the unions untrimmed. The trimmers then clip away the superfluous cloth and the star itself stands revealed. [Pearson's Magazine.]

### AN EXPERT ON LIARS.

[New York Tribune.]

A Kansas City lawyer tells of the use of expert testimony on lying. He says: "I was prosecuting Attorney for Finney county in 1881, and had a fellow up before Squire N. C. Jones on the charge of horse stealing. He hired Mike Sutton to defend him, and when the case was called I proved beyond all question, by a witness who witnessed the theft, that we had the right man. After the prosecution had rested, Sutton introduced 'Buffalo' Jones as a witness, and gravely informed the Court that he intended to prove by him that my witness had lied. 'Buffalo' took the stand and swore that, while he had never seen nor heard of the witness before, and knew nothing at all about the crime committed, he had had a great deal of experience with men, and could tell pretty certain when they were lying. Then he proceeded to tell how men acted when they were lying, and gave the expert opinion that my witness had sworn to lies from the word go. I protested against such performances, but Sutton made the Judge believe he had as much right to introduce an expert on liars as he would have to introduce an expert on medicine or any other science, and the result was the thief was dismissed from custody."

### ONE DOLLAR SAVED REPRESENTS TEN DOLLARS EARNED.

The average man does not save to exceed ten per cent. of his earnings. He must spend nine dollars in living expenses for every dollar saved. That being the case he cannot be too careful about unnecessary expenses. Very often a few cents properly invested, like buying seeds for his garden, will save several dollars outlay later on. It is the same in buying Chamberlain's Colic, Cholera and Diarrhoea Remedy. It costs but a few cents, and a bottle of it in the house often saves a doctor's bill of several dollars. For sale by all druggists.

"Maybe his little excellency wants a rattle," ventured the imperial nurse. "Should I get him one?"

"No," replied the Czar with a sad look at his heir; "he'll be rattled enough later on." [Rams Horn.]

B. F. Leek, of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful, sometimes, that I could not eat. After vainly trying everything else, I cured it, with Bucklen's Arnica Salve. It's great for burns, cuts and wounds. At Mt. Vernon Drug Co. Only 25c."

### BUTTER MADE OF COCOA-NUT.

A new butter is now being made from the milk of the cocoanut. This milk, when subjected to a temperature of over 25 C., turns into a yellow oil, which is imported in great quantities from India and Africa. The better qualities of it are obtained from Ceylon, Cutch, China and Australia. The nut produces 60 per cent. of oil and one acre of land planted with cocoanut trees would produce over 400 lbs. of oil. This has hitherto been used for fats for soap or machinery oil, and the better quality employed in the manufacture of textile goods.

In France this oil is now subjected to a special treatment and converted into butter.

Dr. Heuner, a German chemist, proposes to buy up all the cocoanut oils and transform them into what he terms "vegetable butter."

The cocoanut butter, like that made from cows' milk, contains 7 per cent. of soluble acids. It will keep from fifteen to twenty days without showing any sign of acid reaction, and it contains twenty-five or thirty times less water than ordinary butter, while its slowness in oxidizing makes it specially suitable for pastry and cakes, as they will not get stale so quickly when made with it as with other butter.

Another advantage claimed for the cocoanut butter is that it seems to be an antiseptic medium, while milk is most favorable to the culture of microbes.

At the Central Hospital of Vienna, and in various hospitals in Switzerland experiments have been made with this new butter and the results have been pronounced satisfactory.

# EXCURSIONS TO THE WEST

To the Pacific Coast—to California, Oregon, Washington—round-trip, long transit and return limits, liberal stop-over privileges.

The rate is practically on the basis of one fare for the round trip. Of course, if you wish to visit both California and Oregon or Washington, the cost is slightly more.

These reduced rates are in effect on certain dates in months of May to October, inclusive. They apply from all Eastern points via Chicago, St. Louis or Memphis gateways. The Rock Island System will take you up in either Chicago or St. Louis, or at hundreds of other Middle West points and carry you to the Coast in through Standard or Tourist Sleepers with unexcelled Dining Car service. The Rock Island also affords a choice of routes: on the "Scenic" route you can stop off in Colorado—see Salt Lake City—visit Yellowstone National Park; on the "Southern" route you can go via El Paso, thru New Mexico, then "up coast" to San Francisco and on to Portland or Seattle if desired.

In short, these Pacific Coast excursions offer an unusually good chance to see our western country in a comprehensive manner.

If you desire to go only as far as Colorado, there are excursion rates in effect to that section and return, all summer long, specially reduced June 30 to July 4, August 12 and 13, and August 30 to September 4. Extension trips to Ogden or Salt Lake and return at low cost also.

From September 15 to October 31, 1905, one-way tourist or "colonist" tickets will be on sale to California and the Pacific Northwest—about half regular fare.

If interested, send name and address on this coupon, designating which booklet wanted and to what point you plan to go. Name probable date of start also, so we can advise definitely with respect to rates, etc.
